

Senior Mechanical Engineer

About WindSpider:

WindSpider was founded in 2020 in Stavanger, Norway. We are a group of highly skilled and experienced individuals within the offshore industry. Since entering the market, WindSpider has received very good feedback and an increasingly growing interest from several major wind industry players. WindSpider is now preparing for building of our first full-scale WindSpider system and are looking for qualified, motivated, and experienced personnel.

Senior Mechanical Engineer position description:

WindSpider is looking to fill in the position of a Technical Lead for all the mechanical equipment for the Wind Spider system. The position will include preparation of technical documentation, evaluation and follow up of suppliers during the construction and commissioning phases.

Senior Mechanical Engineer position requirements:

We are looking for motivated and skilled individual with a “can do” and a team player attitude. The right candidates will have:

- Experience from crane and lifting systems.
- Technical knowledge of electrical and automation systems.
- 10+ years of experience.
- preferably an MSc, but candidates with less experience will also be evaluated.
- Good problem-solving skills.
- Interest in working within a new, dynamic, and competent organization.
- English proficiency.

What we offer:

- Work in a dynamic international company within the exciting and fast-growing wind industry.
- Attractive compensation package.
- Excellent office building with canteen and training facilities.
- Great working environment in a dynamic and international company.
