

Senior Structural Analysis Engineer

About WindSpider:

WindSpider was founded in 2020 in Stavanger, Norway. We are a group of highly skilled and experienced individuals within the offshore industry. Since entering the market, WindSpider has received very good feedback and an increasingly growing interest from several major wind industry players. WindSpider is now preparing for building of our first full-scale WindSpider system and are looking for qualified, motivated, and experienced personnel.

Senior Structural Analysis Engineer position description:

The successful candidate will be working with mechanical and structural analyses.

Senior Structural Analysis Engineer position requirements:

We are looking for motivated and skilled individuals with a “can do” and a team player attitude. The right candidates will have:

- Competence and experience from advanced structural analyses using programs such as ANSYS.
- Competence and experience in general structural engineering within offshore and lifting structures.
- 10 + years of relevant work experience is an advantage but well qualified and motivated candidates with less experience may also be considered.
- MSc degree is an advantage.
- Good problem-solving skills.
- Interest in working within a new, dynamic, and competent organization.
- English proficiency.

What we offer:

- Work in a dynamic international company within the exciting and fast-growing wind industry.
- Attractive compensation package.
- Excellent office building with canteen and training facilities.
- Great working environment in a dynamic and international company.
